

## VENT DRYER

### DESCRIPTION

Exhaust Hoods/Dryer Vents are manufactured with galvanized steel, aluminum, stainless steel and satin coated steel.

### APPLICATIONS

Used to exhaust indoor air from dryers or from kitchen and bathroom exhaust fans.

### FEATURES AND BENEFITS

- 4" diameter is stamped construction to insure consistent quality
- Satin coat steel (Galvanealed – paintable rust proof coating) is available to paint to match exterior brick/siding colours
- 10" long pipe to go completely through exterior walls
- Built in damper prevents cold air from entering vent
